

FINANCE AND MINING.

Matters of Trade During the Week.

ORE AND BULLION OUTPUT.

Local Securities—The War Cloud—Wages—Bank Receipts—General Mining Intelligence.

An inquiry at the principal places of business yesterday developed the fact that there is a somewhat better feeling as to the condition of trade; the spring is a dull one, but the week gives greater signs for encouragement than the one previous.

There has been some little stir in local securities. A small block of Deereet Bank stock changed hands at \$207, which is generally regarded as being a low figure; 132 shares of Rocky Mountain (140 on Friday and twelve yesterday) were sold at \$12. There are several lots of Gas and Street Railway stock offered for sale; \$95 is bid for the former, but has not been accepted; the latter is somewhat low, the best offer obtainable being \$31.50; it is said on good authority that the Street Railway Company will pay no dividend for some time to come, the recent purchases, extensions, and more than all, the diminution of receipts consequent on dull times, having rendered a long postponement unavoidable.

Local holders of Horn Silver made some sales at \$2.40.

It is now probable that the Union National will not be ready for operations before June 1st.

A prominent capitalist, and a gentleman thoroughly posted as to the business and industrial status of the city says: "Despite the dullness of the time, there are fewer unemployed men about, than one would naturally expect to see. When times are flush in a city, everybody looks there, and you will find small farms and farming lands generally, offered cheap. When times are dull in a city, farming lands jump up, because people get afraid of town, and resort to agriculture. You will notice now therefore that a great many of the unemployed men have got away, and that there is very little farming land offered in the market."

In the Pacific States and Territories, for the week ending April 11th, there were twenty failures; during the week previous there were thirty-one; during the week ending April 11th, in 1884, there were twenty-five, in 1883, fourteen; in 1882, seven.

From Bradstreet's.
Trade has been favored during the week by very general better weather. Except in the regions west of and tributary to St. Louis and Omaha, where it has been cold, the reports to Bradstreet's are almost uniformly of full inquiry from the interior.

CHATEL MORTGAGE—INTER-STATE VALUERS.—In the case of Kansas vs. Glenn, the Kansas supreme court, recently held that a chattel mortgage executed in Missouri and valid by the law of that State would be valid as between the parties in Kansas, and that where the property covered by the mortgage was removed by the mortgagor to the latter State, the mortgage might follow the property and take possession of the same under the terms of the mortgage.

Influence of War on our Trade.

The war between Russia and England which seems inevitable, has already filled the English manufacturing works with orders, and will, for a time at least, keep them busy. Large orders have also been placed in this country, especially on Russian account (the great amount of these orders has not been reported or appreciated), and the effect will be a very considerable increase in work in the industries affected.

A war between Russia and England, by closing the Black Sea grain supply, would give a great impetus to our grain shipments, increasing the freights to American (neutral) shipping to our railroads and canals. Every branch of industry would feel the effect of this increase in business, and for the moment we should profit by that most dire of evils, a great war.

The condition of our markets is generally such that even a small increase in demand might precipitate a general revival. In other words, the situation is one calling for the closest attention of business men who hope to float in on the approaching tide.—*Mining Journal*.

Ore and Bullion.

The receipts of ore and bullion at the various banks in this city for the week ending Saturday, April 18th, amounted to \$103,021.79, against \$129,400.00 for the week previous. They were distributed as follows:

By Wells, Fargo & Co.:
2 Bars Vienna bullion, \$5,980.00
2 Bars Christy, 1,910.00
2 Bars Ontario bullion, 41,966.62
2 Bars Moore ore, 2,380.00
Silver bar, 500.00
Total, \$55,546.62

By Chase & Co.:

2 Bars Sormont silver, \$3,250.00
Queen of the Hills ore, 3,400.00
10 Bars Hammer bullion, 27,100.00
Total, \$33,750.00

By Walker Bros.:

10 Bars Alice, \$17,225.17

Total shipments for week, \$106,521.79

The Question of Wages.

Mr. George Goss, a gentleman probably as well acquainted with mining affairs throughout the west as any one in this Territory, was seen yesterday and asked what he thought with regard to the outlook. "I think," he was replied, "that the mining outlook is very bad both in Utah and Colorado where I am now operating; lead and silver are with low, but the only way to meet that difficulty is to cut all expenses down, and the output must begin to increase, and there are receiving almost as much money as they did in the flushes of the time. Everything has changed since then, and wages must go down."

Mr. B. G. Baybould, cashier of Walker Bros., said to a reporter, "Things are very quiet here, Idaho has a black eye, but Butte is fast getting

one. Yes, it is becoming evident that at the present prices of copper, Butte cannot hold her own against the Lake Superior mines. She must produce copper at less expense, and the only way to do that is to bring down wages. It is a vital question. There will no doubt be a big fight; but wages up there must be reduced."

A gentleman who has dealt largely in Horn Silver said: "It is only a question of time when the mine will be producing again; but before it does, there are two matters to be settled, railroad freights and miners' wages. I believe there has got to be a big fight yet, to bring down wages to a point where the mine owners can afford to work low grade ores."

Sampson.
In its list of "meetings," the *Engineering and Mining Journal* has the following: Sampson Silver Mining Company, No. 231 East Temple street, Salt Lake City, Utah, May 4th, at 1 o'clock p.m.

Stormont.
Nine hundred shares of this company's stock changed hands in New York on April 9th, and 10th; 14c and 10c are the two figures quoted.

Moulton.
Whether through accident or for some other reason, this stock has been dropped from the *Engineering and Mining Journal's* weekly table of dividend paying mines. No recent quotations are recorded.

Ontario.
There are no recent sales and the latest quotation is the same as recorded last Sunday—\$18.

On May 1st the mill will close down to undergo the annual repairs. Sixteen days will be allowed in which to overhaul everything, weigh quicksilver, etc.; the mine will be worked without stoppage, and twenty-five more men will be put on at the mill to assist in making the repairs.

Horn Silver.
The cessation of operations here seems to have little or no effect on the demand for the stock in New York. For the week ending the 10th inst., 4,500 shares changed hands.

Gold Mining.

Gold mining is attracting more and more attention everywhere throughout the civilized world. The production of gold is decreasing and the amount required is constantly increasing. The consequence is, that the purchasing power of gold is greater every year. Gold mining is almost the only industry whose product is more valuable the "harder" the times and the less it costs to produce. It is almost the only mineral product that never depreciates in value and that never overstocks the market.—*Exchange*.

Metals.

LEAD.—This market is quiet to the point of stagnation. A couple of hundred tons sold in the early part of the week at \$3.00; but corrodors have the impression that even this price can not be maintained, and as they are making no money, they buy only for immediate necessities. This metal continues the most notable of the market.

COPPER.—This metal continues the most notable of the market. This market has been within a day or two quite firm, and is advancing.

We quote Lake \$10.65 offered, \$10.80 asked. At even the highest of these figures, probably not more than 100,000 pounds could be bought, while bids have been made at 10.65 without takers. Offer is firm at 10.50 to 10.75; Baltimore 10.65.

The trustees of Pope, Cole & Co., have made a proposition to pay 80 cents on the dollar of the \$500,000 unsecured liabilities, of which \$100,000 is to be paid in cash, and the remainder on time. The assets are larger, and there is a probability a settlement will be made on that basis. We are informed these copper works will resume full work May 1st.—*New York Engineering and Mining Journal*, 11th.

Alice

Between April 4th and 10th, 800 shares changed hands, at prices varying from \$1.85 to \$1.75, closing at \$1.80.

The Boston Tintic.

This is the title of a new company organized under the laws of this Territory, a certificate of incorporation for which was issued by Secretary Thomas yesterday. The capital stock is placed at \$750,000, divided into 150,000 shares of \$5 each, and is fully subscribed for by the following incorporators, who are also the directors: Eleazar Goulding, Franklin Mason, George E. Cutler, of Farmington, Mass.; Wm. F. James and Wm. G. Van Horn, of Salt Lake City. The company's mines are situated in the West Tintic Mining District, Juab County, Utah.

The Bullion of Wood River.

Mr. E. W. Nash, of Omaha, informed a reporter yesterday that they were driving a tunnel to tap the vein, that shipments were continued in a small way, and the indications continued to be very favorable.

The Monarch.

This property, situated in Ophir canyon, is looking extremely well, and the Brim brothers have six men at work upon it. They make regular shipments to Conklin's mill, in this city.

The Germania.

The output of bullion continues, and the bars are being shipped to Aurora, Ills. The White Lead works will not be started up for some time to come.

The Brooklyn.

Mr. J. J. O'Toole informs us that though we are in the midst of starvation times, he keeps eighty or ninety men at work on his property.

In Telluride.

This district in Colorado has attracted the attention of a number of Utah men, the most prominent being Geo. Goss; this gentleman is said to have a fine prospect over there, and to be in a fair way to make a heavy stake. Our best wish is to go with him.

White Canyon.
Seaboldt, of the D. & R. G. disaster fame, has returned from the south; he says Cass Hite, an assayer, and a party of men remain at work in the White Canyon Country, their faith being unshaken as to the outcome.

THE SWEDS.
They Want a "Svensk Tidning" Published in this City.

SALT LAKE CITY, April 18, 1885.
To the Editor of THE HERALD:

A few days ago a Scandinavian meeting, for the purpose of organizing a Scandinavian Publishing company, was advertised. The meeting was held, and quite a number of gentlemen had gathered, among which the majority were of Swedish nationality, and they did not feel like taking any shares in the company unless the company would promise to also publish a paper in the Swedish language, besides the one now being published in the Danish. The Danes were not very willing to agree upon this, and the result of the meeting was that there was no company formed. Winberg and Jensen have now gone into partnership in publishing the *Bikuben*, from the editing of which P. O. Thomassen has withdrawn. The Swedish citizens want a newspaper printed in their own language, and why can they not have it? A great many people think all Scandinavians speak the same language, but this is a great mistake; the Danish and Swedish languages widely differ from each other. When the gospel was first preached in Sweden, Norway and Denmark, it received most encouragement in the latter country, and the church publications were translated into the Danish language only, and for twenty-six years the Swedish people had to learn Danish if they wanted to know anything about matters and things, but for the last nine years the church works have been translated into Swedish and a semi-monthly magazine treating upon their religious and secular interests, and as a matter of consequence, they have no need of learning Danish. But after they get here, if they want any news from their native country, they will have to either learn Danish to be able to understand about a dozen bits of news published in *Bikuben*, or else send to the states for a Swedish paper published there, and the greater bulk of them prefer to do the latter, and thousands of dollars are sent out from this Territory every year for that purpose. It is well known that the Swedish people are a reading people and if they can not be supplied at home, they will get it from somewhere else. We need a newspaper to send to our friends and relatives in Sweden, and we will send the truth and truly represent us a people. There is a great demand among the Swedish Saints at present for a paper, and they ought to have one. And as for *Bikuben*, a Swedish paper cannot run in opposition to it on account of the language. There is another thing: a Swedishman has enough trouble in learning English, and he gets here, and does not bother himself about learning Danish, a language which is of no use to him. SEVERAL SWEDISHMEN.

CRICKET.

A Good Game at American Fork Yesterday.

AMERICAN FORK, April 18, 1885.

To the Editor of THE HERALD:

There was a cricket match played here yesterday between the American Fork Cricket Club and the American Fork National Cricket Club, in which the first named club were the victors. The following are the scores:

AMERICAN FORK AMER. FORK NAT'L CRICKET CLUB.	Runs	AMERICAN FORK NAT'L CRICKET CLUB.	Runs
T. Steele	2	H. Harte	2
R. Steele	1	J. W. Dunn	15
A. Wagstaff	20	C. H. Robert	6
D. Peto	6	W. F. James	15
G. Robinson	11	L. Parker	8
D. Smith	4	A. S. Thornton	10
F. Parker	2	D. Shelley	2
J. M. Shelley	2	F. Greenwood	6
J. Shelley	6	F. Wright	3
T. Kelley	6	A. Dunkley	4
Total runs	89	Total runs	71
Byes, 1; Wides, 1; No Balls, 1.		Byes, 1; Wides, 1; No Balls, 1.	

The game went off very pleasantly and everybody seemed satisfied, except the losers, and they, or some of them, seemed very much disappointed, but are not discouraged, as there is some talk of the losers giving a second challenge.

C. L. Addelman and James Paxman acted as umpires, Joseph King and George Oler scorers, and gave general satisfaction, so far as the writer can learn.

The Western Union's Hit on Elections.

The local office of the Western Union Telegraph Company made a decided hit in its manner of issuing election bulletins Tuesday night. Bulletins were ordered for several places, and about one dozen copies of every election dispatch were produced. Six of the copies were made by Charles F. Lantry and were printed on a type writer. The success of the undertaking was most flattering.

The Lantry.

Mr. Lantry received compliments from Postmaster Berry, Colonel Caldwell, Lieutenant Governor Hill and others for the neat bulletins provided. With the ordinary stylus it is almost impossible to make more than three or four good copies, yet Mr. Lantry made six printed pages at a time. The type writer was a great help.

The Pitts case.

The case of J. W. Pitts, James Spillet and William Howard were before Judge Taylor yesterday, the first two in the morning and the last named in the afternoon. A continuance was had of the Pitts case until Tuesday, at 11 a.m., and of the Spillet case until Thursday at 2 p.m. William Howard, at 2 o'clock pleaded guilty, when the justice, after taking into consideration the circumstances connected with Mr. Howard's case, and saying that the object of the law was not to persecute, but to enforce the statutes made and provided for the protection of the public, and to prevent the selling of liquor without license, assessed a fine of \$150 or 150 days imprisonment against Mr. Howard. The fine was paid.

A New Steamer for the Lake.

Lovers of sailing will be delighted to learn that arrangements have been completed to place another steam yacht on the lake. The machinery is of the best and latest marine pattern. She will be a stern wheeler and promises to be a very fast and safe boat, will be about thirty feet over all in length, and eleven feet beam with seating room for fifty to seventy-five passengers. Her draft will be less than two feet, and therefore will be able to ascend either the Jordan or Bear River, and will be much appreciated by pleasure and hunting parties who may desire to visit these places.

The Liquor Cases.

The cases of J. W. Pitts, James Spillet and William Howard were before Judge Taylor yesterday, the first two in the morning and the last named in the afternoon. A continuance was had of the Pitts case until Tuesday, at 11 a.m., and of the Spillet case until Thursday at 2 p.m. William Howard, at 2 o'clock pleaded guilty, when the justice, after taking into consideration the circumstances connected with Mr. Howard's case, and saying that the object of the law was not to persecute, but to enforce the statutes made and provided for the protection of the public, and to prevent the selling of liquor without license, assessed a fine of \$150 or 150 days imprisonment against Mr. Howard. The fine was paid.

WHEEL NOTES.

THERE will be another Club run on Monday evening. All cyclists cordially invited.

TWELVE CYCLES the other evening were whirling around the lawn of the Devereux house.

THE CLUB run on Friday evening was much enjoyed by the cyclists. Do it some more, boys.

THREE NICKEL-plated Columbia bicycles arrived yesterday. They are the latest acquisition to the Club.

SOME fast spurring was done on the bicycle track during the week. Several laps being done neck and neck. The races this season promise to be very interesting.

THE WEEK has been a noted one for headers, veterans and beginners taking a hand in them. We hear of a noted one in Ogden, even where a cyclist and a "yaller-dog" got somewhat mixed up.

MR. THOMAS STEVENS, the famous bicyclist, who rode a Columbia bicycle from San Francisco to Boston, sailed from New York for Liverpool, on April 9th, and will start from the last-named city to travel on his bicycle through Europe and Asia; literally over the land portion of the world. He goes under the auspices of the *Outing* magazine. It is probable he will winter in Teheran, Persia, and early in the spring of 1886, begin his route through the Chinese Empire.

Mysterious Death of Stock.

LEHI, April 18th, 1885.

To the Editor of THE HERALD:

A curious circumstance has just come to light, which happened on the range, near this place. Three valuable mares, in foal, the property of Mr. Charles Karren, of Lehi, were found dead on Monday, and on Thursday last. One was found near the track of the Salt Lake & Western railroad. The other two were lying some distance away. They were all seen in good health on Saturday last, April 11th. All had been fed at home, through the winter, and were in good condition. The puzzle with the stockmen is, how to account for their death, as there is a great number of similar animals on the range, but none others died. Some suggest poison as the cause of death, but it is difficult to explain how it could fall so heavy on one, and no one else. Some suggest lightning, with the same results, as no marks were found on them. The loss will be severely felt by Mr. Karren, as he is devoting his time and means to the raising of fine horses, and the mares in foal represent a large amount of value.

Making Room.

The process of clearing out the stock of hats, caps and gents' furnishing goods at GEORGE DUNSTON'S establishment goes on. The sales being made by his clerks have been numerous during the past week, and yesterday the rush must have been gratifying to the proprietor. In short time the clearance will be effected, when a first-class stock of boots, shoes and slippers will occupy the premises. The experience of Mr. Dunston in this line has been such that customers may be assured of being suited in every class of foot-wear, both as to quality and price. The gentleman is a pioneer in the trade in this city and through dull and flush times has maintained a reputation for honest dealing and a thorough understanding of his business, such as few dealers possess. So desirous to secure bargains in the lines being closed out to make room for the increased boot and shoe stock, should bear in mind that but a few more days remain in which to obtain them.

In Memoriam.

On Friday, April 17th, 1885, near the hour of noon, death took from our midst a loved one, and a choice spirit left us to dwell with those congenial to itself. Mrs. Clara J. Young was among the few of whom it can be truthfully said, she was weighed in the balance and found not wanting. As a daughter she was most filial and fond, as a sister, full of loving sympathy, and as a mother, she had no superiors and few equals. Her life full as it has been of sacrifice, was characterized by that sweet and heavenly resignation: "Thy will not mine be done." Those who knew her best loved her most. She has left a vacancy never to be filled on earth, and we can only hope to meet her again where partings are no more.

A New Steamer for the Lake.

Lovers of sailing will be delighted to learn that arrangements have been completed to place another steam yacht on the lake. The machinery is of the best and latest marine pattern. She will be a stern wheeler and promises to be a very fast and safe boat, will be about thirty feet over all in length, and eleven feet beam with seating room for fifty to seventy-five passengers. Her draft will be less than two feet, and therefore will be able to ascend either the Jordan or Bear River, and will be much appreciated by pleasure and hunting parties who may desire to visit these places.

The Liquor Cases.

The cases of J. W. Pitts, James Spillet and William Howard were before Judge Taylor yesterday, the first two in the morning and the last named in the afternoon. A continuance was had of the Pitts case until Tuesday, at 11 a.m., and of the Spillet case until Thursday at 2 p.m. William Howard, at 2 o'clock pleaded guilty, when the justice, after taking into consideration the circumstances connected with Mr. Howard's case, and saying that the object of the law was not to persecute, but to enforce the statutes made and provided for the protection of the public, and to prevent the selling of liquor without license, assessed a fine of \$150 or 150 days imprisonment against Mr. Howard. The fine was paid.

COMMERCIAL.

EASTERN MARKETS.
Money, Stocks, Grain and Cattle Reports.

Petroleum.
New York, April 18.—Petroleum—United, closed 78 1/2.

New York Money Market.
New York, April 18.
Money easy at 1 1/2, closing 1.
Prime paper 4 1/2 @ 5, closing 4 1/2.
Exchange bills dull, 85 1/2.
Sterling exchange demand, 87 1/2.

Bullion.
New York, April 18.—Bar silver, 77 1/2.

Bank Statement.
New York, April 18.—The weekly bank statement shows a reserve increase of \$1,888,450. Banks now hold \$50,386,575 in excess of the legal requirements.

New York Mining Market.
New York, April 18.—The *Mail and Express* says: In the mining shares, market sales were made of Sutor at 13, Best & Belcher at 24, Horn Silver at 2.50, Stormont at 10, Leadville at 35. The market was quiet and without a feature.

New York Stock Market.
New York, April 18.—Stocks continue to give evidence of being well supported. The prices this morning were irregular, the only active weak stock being Lake Shore, New York Central, Union Pacific and Western Union were strong and the grangers heavy, with the principal business in Union Pacific and Pacific Mail. At 11 o'clock the prices were generally a shade above the opening.

New York, April 18.—Wall Street.
3 p.m.—Stocks quiet, with grangers, including Omaha weak, and the rest of the list held until late in the afternoon, when the general market became weak and closed irregular, on a slight rally for some stocks.

New York, April 18.—Government bonds have been quiet and strong, with a gain of 1/2 per cent. bid for 3's and 4's. With the exception of one or two stocks, the stock market has been steady. Total sales being only 205,774 shares. Gould stocks were prominent for their strength, while the grangers were weak, later on reports that the settlement of troubles between the roads in the northwest had again been postponed, with little prospect of reaching an adjustment. Late this afternoon, there was a decided break in Omahas, accompanied by a further yielding of prices in St. Paul and Northwestern, and the whole list, the weakness continuing until just before the close, when there was a slight rally in some of the most active stocks. In the lowest cases, this evening, prices are the same as yesterday, but in the more active stocks, the final quotations show advances of 1/4 to 3/4 from the lowest quotations. With only two or three exceptions they are from 1/4 to 1 1/2 per cent. lower than at the close yesterday. Union Pacific persistently advanced throughout the forenoon, and remained steady until after 1 o'clock, when it yielded and closed at 47 1/2, a gain of 1/2 per cent. Other Gould stocks were quiet, but strong until near the close, when they declined small fractions and closed a shade off from yesterday, except Missouri Pacific, which is still higher. The sales of Pacific Mail were limited to 15,000 shares, the price rising in the forenoon but declining later and closing at a loss of 1/4 per cent. The Vanderbilts were very dull and steady. Comparing the prices this evening with those of a week ago, the changes vary from a decline of 4 per cent. to an advance of 5 1/2 per cent.

Chicago Grain Trade.

CHICAGO, April 18.—1 p.m.—Market closed strong; nearly outside figures; wheat 85 1/2 cash; 85 1/2 May; 89 June; 91 1/2 July.

Corn—Strong and higher: 46 1/2 cash; 47 1/2 May; 47 1/2 July.

Oats—Firm; 34 1/2 May; 35 1/2 June.

Whisky—15.

AFTERNOON.

Wheat—Steady; 84 1/2 lower; 84 1/2 April; 85 1/2 May; 87 1/2 June.

Corn—Advanced 1/2 for April @ May; 45 1/2 April; 46 1/2 May; 46 June.

Oats—Easier; 34 1/2 May; 34 1/2 June.

Rye—Steady; 60 1/2.

Barley—Nominal.

Mess Pork—Trading moderately active, prices ruling 10 @ 15 higher, closing steady, May 11 1/2 @ 11 3/4; closing 11 1/2 @ 11 3/4.

Lard—Ruled quiet, firm; May 9 1/2 @ 9 3/4.

Boxed meats—Firm; dry salted shoulders, 4.50 @ 4.60; short rib sides, 6.00 @ 6.02 1/2; short clear 6.35 @ 6.40.

Whisky—Firm; 15.

New York Wool.

New York, April 18.—Wool—Quiet, steady.

Domestic fleeces 27 @ 36

SAINT LAKE CITY, Utah, March 5, 1885.

COMPLAINT HAVING BEEN ENTERED at this office by Otto Van Gormum of Salt Lake City, Utah, against Andrew J. Hubd, for abandoning his Homestead Entry No. 7118, dated July 8, 1877, upon the Bendway Quarter Section 17, Township 2 S., Range 1 W., in Salt Lake County, Utah Territory, with a view to the annulment of said entry, the said parties are hereby summoned to appear at this office on the 20th day of May, 1
